

MRS. CANDACE E. ROBERTS

Mission Statement

First Grade Program

My mission is to facilitate learning in my classroom so that each child may reach their maximum potential. I am committed to creating a classroom environment where each student feels a sense of belonging, significance, and fun. I will accomplish this through planning and implementing challenging and developmentally appropriate activities and the *Responsive Classroom Approach*. I will encourage and guide each of my students to grow intellectually, socially, and responsibly as they develop into active members of our community.

I will never stop believing in the power of education.
